

GRIDDLES & FRY TOPS

product range and specifications

Vimitex is a highly competitive, catering equipment manufacturer. Since 1973 we have been designing and producing commercial kitchen appliances in our factory in Greece.

Being a true customer-oriented company, we are committed to satisfying our customers' needs through extensive research based on the feedback we have collected throughout the years.

Vimitex gas grills are certainly our best-designed and technically advanced appliances, as they are the first machines produced with our brand in 1973. Since then, we have been steadily trying to build a range of great performance that is very easy to clean at the same time. We consider chargrills an integral part of a restaurant kitchen which should be tailored to meet the demands for power, energy efficiency, high performance and ease of use.

The series we present to you comes with a variety of surfaces for different ways of cooking, while we have carefully selected advanced technology gas control components, extremely powerful burners and durable materials that guarantee safety, functionality and robustness in an aesthetically pleasing design.

751

A countertop gas vapour grill with 1 powerful burner, offering rapid heat up, great performance and speed. Suitable for low-volume grill houses, snack bars, fish taverns, and family restaurants.

Ideal for all kinds of meat, fish and vegetables. The optional V-grate is perfect for fatty cuts (steaks, burgers, ribs and sausages) while the S-grate is recommended for even fattier pieces.

The burner is designed to spread the heat evenly across the entire cooking surface and the flow of gas is regulated by progressive control knobs to ensure total temperature control on the grate for energy-saving and low-cost cooking.

Equipped with a well protected pilot flame safety system placed at the front part of the machine for easy access.

A reliable, high performance gas grill that offers simple operation and a long, trouble-free life.

Technical Data

Burner: Iron, 1x12.6kW

Removable protective burner covers

Control device: thermo-magnetic valve

Safety control device: pilot flame

Removable water tray: 1

Water evaporation delay system

Cooking area dimensions: 340x510mm

Interchangeable cooking surface

Piezo-electric ignition

Progressive control knobs

Adjustable feet

Accessories

Patent removable and reversible cast iron grill bars (round and flat-shaped) 340x510mm

Cast iron perforated, ribbed grate 340x510mm

Stainless steel type "V" grate 340x510mm

Stainless steel type "_" grate 340x510mm

Stainless steel type "S" grate 340x510mm

Stainless steel grate 340x510mm

Product family	Gas Griddle
Type	Single burner countertop steam grill
Power	12.6 kW
Dimensions	400x700x300 (430) mm
Power supply	Gas: LPG, natural gas
Surface	Stainless steel grate

751V

A countertop gas lava stone grill with 1 powerful burner, offering fast pre-heating, superior grilling performance and speed. It is ideal for lean meats like poultry without skin, beef steaks and skewers but also seafood, fish and vegetables.

Lava rocks add a smoky flavour to food but they are a healthier alternative to charcoal.

This model is suitable for small restaurants, snack bars and fish taverns that put a premium to quality and taste. It is also many chefs' favourite auxiliary grill, used mainly for beef fillets.

The burner is carefully designed to heat up the lava stones which radiate heat for a long time, providing great performance and economy.

The flow of gas is regulated by progressive control knobs to ensure total temperature control on the grate for energy-saving and low-cost cooking.

A well protected pilot flame safety system is placed at the front part of the machine for easy access.

A sturdy, well-built appliance that is very easy to clean and maintain for a long time.

Product family	Gas Griddle

Technical Data

Burner: Iron, 4x12.6kW

Removable protective burner covers

Control device: thermo-magnetic valve

Safety control device: pilot flame

Removable water tray: 4

Water evaporation delay system

Cooking area dimensions: 1480x510mm

Interchangeable cooking surface

Piezo-electric ignition

Progressive control knobs

Adjustable feet

This model is the largest of the Vimitex grilling line and has been steadily produced for many years. It is designed to meet the rigorous demands of professionals in all kinds of high volume commercial kitchens.

The 4 high efficiency burners are designed to spread the heat evenly across the entire grilling surface and the flow of gas is regulated by progressive control knobs to ensure total temperature control on the grate for energy-saving and low-cost cooking.

A series of interchangeable griddles offers great cooking versatility for all kinds of meat, fish and vegetables. For fatty cuts (steaks, burgers, ribs and sausages) we propose the "V" grate while for even fattier pieces the "S" grate.

A well protected pilot flame safety system is placed at the front part of the machine for easy access.

A reliable, high performance gas grill, hand-built in our factory with premium quality materials and components that offers simple operation and a long, trouble-free life.

Product family	Gas Griddle
Type	4 burner countertop steam grill
Power	50.4 kW
Dimensions	1600x700x300(430) mm
Power supply	Gas: LPG, natural gas
Surface	Stainless steel grate

Accessories

Patent removable and reversible cast iron grill bars (round and flat-shaped) 370x510mm

Cast iron perforated, ribbed grate 370x510mm

754V

This is the largest countertop gas lava stone grill in our line and the only machine that can fulfil the special culinary demands of high-volume restaurants, hotels, fish taverns or steakhouses dedicated to offer top quality grilled meat and fish in their menu.

It features 4 powerful burners that offer fast pre-heating, superior grilling performance and speed. It is ideal for lean meats like poultry without skin, beef steaks and skewers and but also seafood, fish and vegetables. Lava rocks add a smoky flavour to grilling but they are a healthier alternative to charcoal.

The burners are carefully designed to heat up the lava stones which radiate heat for a long time, providing great performance and economy.

The flow of gas is regulated by progressive control knobs to ensure total temperature control on the grate for energy-saving and low-cost cooking.

A well protected pilot flame safety system is placed at the front part of the machine for easy access.

A sturdy, high performance gas grill, hand-built in our factory with premium quality materials that is very easy to clean and maintain for a long time.

Suitable for low-volume grill houses, snack bars, hotels, fish taverns and restaurants, this single burner, freestanding gas griddle can cook a wide range of foods from meat, fish and seafood to eggs and bacon, pancakes, french toast, vegetables and anything else that can be grilled or shallow fried.

The smooth plate heats up quickly, eliminates smoke and flare-ups and is extremely easy to clean with a damp cloth, spatula or scraper. The stainless steel surface is less sticky and easier to maintain.

A fat collection drawer drains any fats during cooking, adding to the ease of operation and cleaning.

The burner is designed to spread the heat evenly across the entire cooking surface and the flow of gas is regulated by progressive control knobs to ensure total temperature control on the grate for energy-saving and low-cost cooking.

A well protected pilot flame safety system is placed at the front part of the machine for easy access.

751CHR

Our top-of-the-line, chrome plated griddle, besides being aesthetically pleasing, delivers amazing performance so as to satisfy the needs of the most demanding gourmet chefs. It is suitable for low-volume grill houses, snack bars, hotels, wine bars and restaurants that put a premium on high-quality grilling.

Its distinct feature is the non-porous cooking plate that doesn't stick or absorb any odours, offering maximum grilling versatility as different meals can be easily prepared at the same time.

The chrome mirror-smooth surface heats up faster but reduces heat transmission to the environment, eliminates smoke and flare-ups and therefore is the ideal appliance for small confined spaces or during warm seasons.

This single burner, countertop chrome plated griddle can cook a wide range of foods from meat, fish and seafood to eggs and bacon, pancakes, french toast, vegetables and anything else that can be grilled or shallow fried.

It is extremely easy to gently clean it with a damp cloth or spatula to avoid damaging the surface.

It is equipped with a well protected pilot flame safety system at the front part of the machine for easy access and a thermostatic temperature control for precision and safety.

A simple yet highly efficient device that ensures ease of use and superior cooking results.

Technical Data

Burner: Iron, 1x8kW
